## NEXT GENERATION HERD SIRE & FOUNDATION FEMALE SALE

Friday, March 15, 2019 - 12:30 PM CT  
At the Ranch - North Platte, Nebraska

*Selling*

**160 POWERFUL ANGUS BULLS  
45 ELITE FEMALES  
plus 5 RANCH BROKE GELDINGS!**

# most of the

## *Greetings Fellow Cattleman -*

Welcome to TD Angus at Rishel Ranch on our new sale day, Friday March 15th. We have an exciting offering for our customers this year. Since our purchase of the ranch and angus cow herd from Bill and Barb Rishel in 2017, we have jumped all in to continue to bring you "the most of the best". With the help and direction of Bill and Barb, we have continued to push this cow herd to industry leading heights. With an extensive embryo transfer program, where anytime of the year we will have multiple proven donor cows on a flushing schedule of every 60 days, we have grown the quality and consistency of this cow herd to unprecedented levels. Through our embryo program, we have invested in our customers success and future and we can't wait to share that with you.

This years offering includes a new sire group that we couldn't be more excited about. Playbook is the most impressive Payweight 1682 we had ever seen and with his powerful and proven dam, we knew he would have a positive and lasting effect on our customers programs and once again dove all in. Bill and I both agreed he possessed our ranch motto, "the most of the best" and we quickly added him as a senior herd sire. Playbook's first sons, the largest offering in the nation, sell right here on Friday March 15th with both powerful groups in the 18 month old and yearling bulls, sure to fit any program. His sons are faultless on structure and soundness, easy fleshing, continues our legacy of carcass merit and as gentle and easy going as we have ever seen in a sire group. It is safe to say that his sons are one of the most consistent sire groups we have EVER had on the ranch. You as a cattleman have the opportunity to buy sons and be on the front end of what is arguably the most consistent sire group in the country and possibly in the last decade right here at TD Angus on Friday, March 15th.

Along with the new Playbook sire group we return with our Cavalry, In Focus, GPS, Phenom and Destination 123 sons. These bulls are veterans in this program and they earned the right to be used here for multiple breeding seasons. We have daughters in production by all of them and couldn't be more excited for there lasting impact in the program as cows working in the Nebraska Sandhills and throughout the country.

Just as in years past, we will follow the bull sale with our Foundation Female Sale. This is the largest female offering to date with 35 yearling heifers, 11 fall bred heifers, and one special heifer pregnancy followed by 5 ranch broke geldings right out of our string. The first ever Playbook sired Fall bred heifers will be offered and we are elated to present that opportunity to our customers to once again put them in the front of the pack and in the drivers seat of the industry.

Hope to see you on Friday, March 15th to see the "Most of the Best."

*Trey & Dayna Wasserburger*

# NEXT GENERATION HERD SIRE & FOUNDATION FEMALE SALE

**Friday, March 15, 2019 - 12:30 PM CT**  
**At the Ranch - North Platte, Nebraska**

## SALE LOCATION

3230 E Watts Rd. / North Platte, NE 69101

## SALE SCHEDULE

**Friday, March 15, 2019**

8:00 AM (CT) - Cattle Available for Viewing  
11:00 AM - Complimentary Beef and Noodles Lunch  
12:30 PM - TD Angus Bull Sale

*Please join us for a Certified Angus Beef meal and beverages following the sale.*

## SALE DAY PHONES

Trey Wasserburger 307-660-8650

## VOLUME DISCOUNTS

**5% discount: 5-9 bulls purchased**  
**10% discount: 10 or more bulls purchased**

**LOAD OUT** Load outs will take place after the completion of the sale.

**DELIVERY** Free delivery to any state in the continental United States. Haul your own bulls sale day and we'll deduct \$100/bull. Our goal is to complete all deliveries by May 15. Buyers cooperation in this regard is greatly appreciated. Contact Trey when you brand your calves and he will bring your bulls with him. It gives him an opportunity to view the calf crop and understand your program and its goals with more clarity and direction.

**CAN'T MAKE IT?** Buy with confidence on sale day! A TD Angus representative will buy on your behalf, within your budget, and we guarantee your satisfaction upon delivery.

**ONLINE BIDDING** The sale will be broadcast live on DVAuction.com. Please register to bid at least 24 hours in advance of the sale.

**DVAuction**  
*Broadcasting Real-Time Auctions*

*more information at* **TDANGUS.COM**

**FERTILITY & BVD TESTED** All Angus bulls selling have been fertility and BVD tested and scrotal measurements were taken by Dr. Kevan Albertson, Stockman's Vet Clinic, North Platte, NE.

## GENOMIC TESTING

All of our cattle have been genomically tested using AngusGS powered by Neogen GeneSeek.

**ANGUS**GS

**RETAINED INTEREST** TD Angus will retain 1/3 revenue-sharing semen interest in all bulls selling. The buyer has full possession and 100% of the salvage value of the bull. Should we want semen on any bull selling in the sale, semen for our use would be collected in the off-breeding season at your convenience and at our expense.

**ULTRASOUND DATA** Craig Hays of Critical Insights performed all Angus ultrasound work.

**LIABILITIES** All persons attending the TD Angus sale do so at their own risk. TD Angus assumes no liability, legal or otherwise, for any accidents that might occur on or about the premises.

**SUPPLEMENT SHEET** A supplement sheet will be available with complete and up-to-date information on sale day and will be posted online at TDAngus.com.

**GUARANTEE** All bulls are guaranteed against breeding injury for the first breeding season. Breeding season is defined as the 60-day period following the first turnout of the bulls. Please notify us as soon as possible when an injury occurs and prior to the injured bull being sold for salvage. Credit for the amount of purchase less the salvage value will be given in next year's bull sale. This guarantee does not include death loss. Mortality insurance available sale day.

# ANGUS BULL BUYER'S REFERENCE

We want to simplify bull-buying decisions for our customers. We try to present data that we believe has great economic merit and do it in a form that is easy to read and understand.

## birth traits

**CED** – A higher number, more calving ease.  
**BW** – A lower number, a smaller calf.  
**Act BW** – Ratioed and incorporated into the EPD.

**INDUSTRY TREND** – Greater numbers of Angus sires are reaching extremely high CED and low BW EPD values, largely due to highly heritable shorter gestation lengths. We do not see it as a positive trend when calves become too small at birth. In addition, none of these birth traits measures calf vigor of a sire's progeny and mothering ability of the cow line. We do that for you.

- Hfrs
- Cows

**OUR RECOMMENDATION** for bulls to use on heifers is based on a combination of CED being +6 or greater and BW being +2 or less. We also look at the birth weight history of the bull's mother and cow family and the use of genomic markers and may adjust our recommendation accordingly. Using these criteria, we cannot recall the last time we have had a customer complaint with a calving difficulty problem.

ANGUS GS

PERFORMANCE				FEED/MAT. EFFICIENCY			SVALUES	
CE	BW	WW	YW	RADG	DMI	DOC	\$W	\$F
13	-2.3	62	120	0.16	1.21	18	62.55	74.82
<input checked="" type="checkbox"/> Hfrs	Act BW	205 Wt	365 Wt	HP	CEM	MILK	\$G	\$B
<input checked="" type="checkbox"/> Cows	61	765	1274	10.4	11	21	38.37	135.43

Impressive "Cavalry" son that has been a favorite since birth and has had a huge following from visitors to the ranch. Thick as a tank, super gentle and out of a great first calf "Payweight 1682" daughter. 205-765 (113) Top: 10% CED, 2% BW, 20% WW, 10% YW.

## performance traits

**205 wt.** – weight adjusted for age of dam to 205 days, ratioed in contemporary group and incorporated into WW EPD.

**365 wt.** – weight adjusted to 365 days, ratioed in contemporary group and incorporated into YW EPD.

**INDUSTRY TREND**—The industry is fascinated with chasing extremes of WW EPD and YW EPD to the top percentiles of the breed, and selection pressure will move them higher. Long-time customers that retain ownership through the feedlot have no problem producing 1450#-1500# pay weight steers from bulls that range from +90 (top 55%) to +121(top 10%) of the breed. We believe this selection criteria will help us and our customers control cow size and cow maintenance requirements and therefore cow herd costs.

## feed efficiency traits

**RADG** – expressed in pounds per day, this is a predictor of a sire's genetic ability for post-weaning gain in future progeny compared to that of other sires, given a constant amount of feed consumed. A higher number is more favorable.

**DMI** – expressed in pounds per day, this is a predictor of difference in transmitting ability for feed intake during the post-weaning phase, compared to that of other sires. A lower number is more favorable.

**INDUSTRY TREND** – A search of the sire summary reveals major differences in sires in their combination of RADG and DMI. Some high-\$B sires have a desirable combination of high RADG and low DMI, while many others are upside down. It appears to be quite genetic and we have been utilizing it for several years in sire selection, not only for feedlot efficiency for customers who feed cattle, but for related cow efficiency for all customers.

## maternal traits

**CEM** – difference in percentage of unassisted births in a bull's daughters as first-calf heifers. A higher number is more favorable.

**HP** – selection tool to increase probability of a sire's daughters becoming pregnant as first-calf heifers during a normal breeding season.

**MILK** – predictor of a sire's genetic merit for milk in his daughters; it is part of a calf's weaning weight attributed to milk and mothering ability.

**DOC** – predictor of temperament and behavior of a sire's progeny.

**INDUSTRY TREND** – *We believe that CEM is one of the most overlooked and underutilized values we have in our selection tool box.* We believe that a less stressful unassisted birth in a first-calf heifer helps her be a better mother and allows her to recycle sooner, giving her a better chance of staying in the program for a lifetime of production. This is a major economic impact, considering the cost of heifer development. Similarly, HP has economic impact as well. It is a number we want to know more about, but we have been making an effort to use sires that excel with very positive numbers. When it comes to "milk," we have positioned our herd away from the extremes. We want our cows to milk enough to raise a big calf and not so much that it becomes a liability to reproduction and cow maintenance and to adapt quite well to a vast majority of the environment and resources of many of our customers' programs. The DOC EPD certainly has value as a convenience trait, but also has great economic merit in terms of how cattle perform and function. Higher levels of docility can improve conception rates in A.I. programs and will definitely improve performance in the feedlot.

**OUR RECOMMENDATION** – We believe these four traits (CEM, HP, Milk, DOC) have a great deal to do with maintaining a cow herd that has both reproductive efficiency and stayability which combined, lead to greater longevity. When a cow stays in the herd long enough to cover the cost of putting her in production, she becomes more profitable to the operation each year thereafter. It is the single biggest economic factor of profitability to the bottom line of a cow/calf operation.

## carcass traits

**Ultrasound** – Phenotypic data taken with an ultrasound machine that is incorporated along with genomic markers for carcass merit into the carcass EPDs.

**EPDs** – The carcass EPDs are the ultimate selection tool for carcass merit.

## value indexes

**\$Value** indexes are multi-trait selection indexes, expressed in dollars per head, to assist beef producers by adding simplicity to genetic selection decisions. The \$Value is an estimate of how future progeny of each sire are expected to perform, on average, compared to progeny of other sires in the database if the sires were randomly mated to cows and if calves were exposed to the same environment.

**Weaned Calf Value (\$W)** – is the expected average difference in future progeny performance for pre-weaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk and mature cow size.

**Feedlot Value (\$F)** – is the expected average difference in future progeny performance for post-weaning merit compared to progeny of other sires.

**Grid Value (\$G)** – is the expected average difference in future progeny performance for carcass grid merit compared to progeny of other sires.

**Beef Value (\$B)** – is the expected average difference in future progeny performance for post-weaning and carcass value compared to progeny of other sires. ***\$B does not include any prediction of fertility, maternal value or stayability in the cow herd. It is a terminal post weaning and end product economic value.***

# FEEDER CALF BUY BACK PROGRAM

Here at TD Angus we recognize and appreciate the genetic value these cattle have and most importantly how they can perform in the feedyard, specifically on the grid evaluation. As the seedstock producer, we believe our job does not end when the bull leaves the ranch and our commitment to our customer continues from the pasture to the plate. As in past years, we would continue to encourage our customers to contact us as anytime when they decide to market their calf crop so we can assist as representatives or most importantly as potential buyers. There is no fee or any hidden commissions to enter this program, we don't need to run them through a chute or put a special tag in their ear to estimate or understand their value. Any weight, any sex, at any time of year we are continually looking for cattle that fulfill the "most of the best" in the feedyard or as replacement heifers. Feel free to contact us at any time.

**Trey Wasserburger 307-660-8650 / Bill Rishel 308-530-7999**

*Thank you* to these customers for working with us and giving us the opportunity to purchase their calf crop in 2018-2019.

This highly proven sire has been the top selling sire group for the past two years with the \$100,000 B/R Nationwide 69 in 2017 to a premier group of Angus breeders including Knox Bros, San Angelo, TX; Hoffman Ranch, Thedford, NE; Peterson Angus, Alcester, SD; Rancho Casino, Denair, CA; Dal Porto Angus, Oakley, CA; Teixeira Angus, Pismo Beach, CA; Booth Family Angus, Torrington, WY; and Express Ranches, Yukon, OK and his \$60,000 flush sister to topping the female division to Knox Bros. In 2018 the "Cavalry's" swept the ring again with the \$30,000 T/D Attila 711 to Knox Bros, his \$28,000 flush sister to the good cattlemen Jerry Adamson of Rockin J Ranch and KTO Inc. and 23 sons averaging \$8706. These sons and daughters have made a statement in some of the most respected programs across the nation as these cattlemen rave about the tremendous flesh, soundness, fertility and breeding ability of the "Cavalry" sons and incredible motherly demeanor and beautiful udder quality of his daughters. This year cattlemen will have the first opportunity to purchase bulls out of his daughters retained in the program. This sire has proven himself time and time again and we will continue to direct our breeding decisions accordingly.

The first offering of Tex Playbook 5437 genetics from TD Angus at Rishel Ranch. Playbook is proving to sire tremendous consistency and uniformity in his progeny across the country and with 1,902 birth wts recorded as of this writing he posts a BW EPD -.2 and CED +13 (top 10%) on 458 first calf heifers. He is top 1% of the breed for docility making him a breed leader for two very important convenience traits in our business. These cattle have volume, capacity and skeletal correctness. There are 30+ sons in this offering and they are out of cows with generations of the right kind behind them.

31	54	0.75	0.26	0.066	88.26	80.99	32.90	151.06

This high volume, easy fleshing individual is one of the bulls that cattlemen come to see at ORigen and one of the highest demand sires in the 15 year history of ORigen. Few calving-ease bulls in Angus history have ever offered the extreme body mass and depth of body that is a trademark of Payweight 1682 and his progeny. The 1682 daughters that we have production in our program display his depth of body and ease of fleshing with beautiful udders and proving to be very good mothers. Some of our favorite calves are out of 1682 daughters and we have daughters in the exclusive Embryo transfer program already.

24	48	0.68	0.63	-0.025	42.67	64.12	44.06	161.32

B/R Destination 928-123 was the third high-selling bull, at \$20,000, to Jim Michels and Jim Wurdeman in the 2012 sale. "123" was a powerful bull from the start, posting a 205-665 (102) no creep and a 365-1300 (110). Perhaps the best part of his performance record is the fact that he was the second-highest gaining individual in the calf crop at 4.15 pounds a day (ratio 119). That early feed efficiency is reflected today in his RADG and DMI EPDs.

"Cowboy Up" is simply the cowboys kind! His sons are highly functional, very sound, rugged and have extra muscle. Cowboy Up was the sensation of the spring 2016 bull sale season when two-thirds interest of him sold for \$350,000 and at the 2017 Bases Loaded Sale a 10% semen interest of him sold for \$120,000 while a full sister heifer calf pregnancy to Cowboy Up sold for \$50,000 to top that division of that very elite Angus sale. Top 4% for CW, top 2% for \$F, WW and YW, top 10% for \$B and top 10% for RADG.

**FULL BROTHERS - LOTS 41-44** Lots of power and volume in these four flush brothers sired by "Cowboy Up" and out of an elite cow. This cow is already in the E.T. program and we expect great things of her. The "Upward" daughters have proved to us that they are making very productive cows with good feet and legs and sound udders. The mother of these bulls posts 2WWR@121, 2YWR@116, 2IMF@103, 2RE@102.

B/R Rito 3216 was the \$30,000 Lot 1 bull in our 2015 sale, selling to Agri Beef, Silveria Bros. and Watkins Angus. He is out of a full sister to B/R Destination 928-7222, and his grandam is the powerful B/R Ruby 1224, the mother of B/R New Day 454. There is a lot of power in the blood here. These cattle are extremely sound and structurally correct. They carry good length of body and worlds of volume.

**FULL BROTHERS - LOTS 45-49** These five bulls are sired by B/R Rito 3216, sold for \$30,000 in 2015 to Agri Beef, Silveria Bros, Bieroth Ranch and Watkins Angus. He is out of a full sister to B/R Destination 928-7222 and his grandam is the mother of B/R New Day 454. "3216" progeny are performing extremely well posting: 157BWR@100, 160WWR@101, 98YWR@98, 125IMF@104, 125RE@99.

One of the most powerful bulls we've ever raised. Super sound and very gentle. He reminds us a lot of his maternal brother, Nationwide. Top: 25% WW, 20% YW, 20% Doc, 25% CW, 25% MB, 10% RE, 5% \$W, 15% \$G, 15% \$B.

**B/R PRIDE 1551 - DONOR OF LOTS 50-55**

**FULL BROTHERS - LOTS 50-55** Opportunity abounds in these "Playbook" and "1682" sons of B/R Pride 1551. She has now passed the \$300,000 mark in progeny sales and her offspring are making their mark in programs across the country as is the case with the \$110,000 B/R Nationwide who several breeders have reported them to be a powerful sire group. Heifer pregnancies from "1551" have averaged \$23,000 to date and we believe her genetics along with her two phenomenal flush sisters will have an enduring impact on the industry. Her record: 4WR@102, 4WWR@113, 4YWR@114, 13IMF@103, 13RE@103.

The first offering of Tex Playbook 5437 genetics from TD Angus at Rishel Ranch. Playbook is proving to sire tremendous consistency and uniformity in his progeny across the country and with 1,902 birth wts recorded as of this writing he posts a BW EPD -.2 and CED +13 (top 10%) on 458 first calf heifers. He is top 1% of the breed for docility making him a breed leader for two very important convenience traits in our business. These cattle have volume, capacity and skeletal correctness. There are 30+ sons in this offering and they are out of cows with generations of the right kind behind them.

This calf has had our attention since early summer. He's a powerful made bull with a ton of rib and lots of grow. Posted a 205-767 (119). His dam is a "Warrior" daughter that was the youngest in her calf crop born 4/15/2014. She settled A.I. as a heifer and calves a heifer at 22 1/2 months on 3/1/2016. That heifer scanned a 7.48(107) IMF and sold in 2017 for \$4,000 to Knox Brothers. Her second calf, a bull, hit the ground 2/20/2017 and sold to Guggenmos for \$5,250 in 2018. She then dropped this high performance stud on 1/23/2018 giving her an ACI 3 calves @ 346 days. Stay tuned she is due A.I. 2/3/2019 to "Compadre".

videos available at **TDANGUS.COM**

**FULL BROTHERS - LOTS 57-59** A fascinating set of "Playbook" sons from a great cow family. The B/R Miss Alpine 2014 has developed as a dominant female in the program. A daughter of B/R Ambush 28 she is out of the mother of SCR Right Cross 70024. She is the grandam of the \$22,500 TD and ABS Global sire, B/R Compadre 5201, top selling fall bull in 2017. This family of females exhibit exceptional calving ease, one of the best lines of feed efficiency in the program, plenty of marbling, \$W and \$B. Herd bull material.

"Nationwide" was the show stopping \$110,000 top selling bull in our 2017 sale. He was truly unique and exhibits a multitude of superior traits of economic value for the industry. The legacy of his mother, the incredible "1551", continues to grow with each calf crop and notable cattlemen from around the country have described her as one of the most powerful Angus cows they have seen. Due to his untimely death his semen was only available in the owners' herds. This is the first opportunity for Angus breeders across the country to acquire "Nationwide" sons in their program. We couldn't be more excited about the progeny of this young and deceased sire.

B/R MVP 5247 was the \$14,000 Lot 1 bull in the 2017 sale purchased by Denny Danielson of York, NE. His dam and grandam are both in the donor program. The sire of his dam is the \$6,500 Lot 1 bull in 2013 to Tom Walz and he is the maternal brother to B/R Comrade 49, the \$34,000 top selling bull to Spring Cove and Triple L in 2015. His grandam is an outstanding female as well with ACI 5 calves @ 359 days, 5WWR@110, 5YWR@104, 5IMF@101, 5RE@99. His progeny record on this first calf crop is 18BWR@98, 16WWR@101. His numbers, phenotype and great cow family identify him as not only one of the elite "1682" sons in the industry, but we believe one of the best young sires in the business.

In the spring of 2017, we looked for a bull to follow the A.I. on the best set replacement heifers in the history of the program. We gave \$44,500 for the Triple L / Spring Cove sire, Spring Cove TL "Cat" D13, top selling bull of their 2017 sale. The soundness, power, libido and semen producing ability of this sire is exceptional. We really like this mother and her udder is superb. To top it off he has excelled as a calving ease sire with muscle. His first calf crop to date posts 3 herds: 52BWR@99, 46WWR@101 and they are really well made.

A son of Garden Prime Star and out of a tremendous daughter of B/R Destination 727-928, he exhibits some amazing genetics. A rare individual in the top 10% of the breed for CED and YEPD. He has excellent heifer pregnancy and moderate milk which has helped his daughters prosper in the grasslands of Wyoming and will do the same in the Sandhills of Nebraska. He is in the Top 1% of the breed for marbling and the Top 5% for \$B. A very unique genetic piece for any program.

The now deceased "In Focus 4925" has had a remarkable impact on cow herd. His daughters are data proven, fertile, easy fleshing, gentle and raise big calves and some have made their way into the embryo program. When one studies the EPD profile of this bull, it is very apparent that he excels in a tremendous number of economically important traits. We are especially excited about the combination of feed efficiency, docility, heifer pregnancy and scrotal power that he brings to the table with his growth and \$ values. We are thrilled with what we see in these cattle and are pleased to offer some great breeding pieces in both the bull and the heifer offering sired by "4925".

42	39	1.51	0.76	0.010	66.08	61.05	63.72	152.81

This bull brings a multitude of very important traits together at a very high level. He is a proven calving-ease sire, he is in the top 1% in the breed for docility and he is explosive in the carcass arena, with marbling in the top 1% and ribeye in the top 10%. Early ultrasound data confirms that he is quite dominant in his ability to improve carcass merit in his progeny. The dam of Phenom is the all-time record-selling female from the GAR program, having sold for \$425,000 to Deer Valley. In November 2016, the top-selling female in the Deer Valley sale was a heifer out of GAR Progress 830, fetching \$150,000 for 1/2 interest.

# HEIFER PREGNANCY

**TD ANGUS**  
*at Rishel Ranch*

**CASINO ANNIE K48**

Unique opportunity to acquire a heifer pregnancy by the dam of Casino Bomber, Casino Annie K48 out of one of the stoutest sires of the industry, Hoover No Doubt. An elite mating that not only will compliment each other in phenotype but for an EPD profile as well. Two heifers are confirmed in this mating and buyer can choose after genomic testing is performed. Heifer will be born 11/19/19 or 1/20/20.

Casino Annie K48 is the mother of Vermilion Ranch herd sire Casino Bomber N33, the high selling bull raised by Dave and Carol Medeiros that sold for a record \$190,000. She is described as the ideal cow fit for the industry, long spined with near perfect udders and a great production record. Bomber N33 calves at TD Angus look to be exceptionally long bodied, very sound with a remarkable light birthweight to growth spread. Look for Bomber sons to sell at TD Angus in 2020.

**HOOVER NO DOUBT**

Hoover No Doubt was the \$67,500 top-selling bull at Hoover Angus and was the top selling bull in their entire history. No Doubt recorded an adjusted 1540lb yearling weight to ratio #113 among his contemporaries. No Doubt sons have topped sales all across America, selling as high as \$170,000 at Baldrige Bros and \$38,000 at Hoover Angus. No Doubt is siring stout made calves with outstanding disposition and added muscle while still maintaining soundness. Look for his sons to sell at TD Angus in 2020.

Performance and phenotype all wrapped into one! This powerful female is a highlight of the offering and is the sixth generation of "Lantz Blackcaps" in the program dating back 38 years to 1981. She ranks top 2% of the breed for WW @ +77 and YW @ +132. Her dam, a valued member of the donor program, shows 4BWR@99, 4WWR@110, 4YWR@107, 3%IMF@125, 3RE@105. Described by some as the best "Valor" daughter they've ever seen and we agree. **TD Angus will retain one flush.**

	70	577	1059	8.6	1	32	51.43	165.69

Outstanding genomics in this heifer for BW, Doc, HP, CW and MB. This "Colonel" daughter posts superior \$ Values. Top: 10% \$W, 30% \$F, 10% \$G, 10% \$B.

These "True Value" daughters have made very productive functional cows. They are very fertile with beautiful udders. note that two of the three are nearly full sister in blood being out of 3/4 sisters. The third is a direct daughter of "7200" that produced the \$5500 Lot 78 to Doug Snyder and the \$4750 Lot 79 to Ron Ruff in 2017. The pick of their flush sisters sold as Lot 63 for \$12,000 to Knox Brothers. The "7200" cow is also the grandam of the \$28,000 B/R Warrior 461 selling to Pass Creek Angus in 2015.

This is the first ever "1421" daughter we have ever offered. Very special full sister in blood to the \$60,000 B/R Pride 618 and the \$110,000 B/R Nationwide. Her dam is one of the "Three Prides" at TD Angus along with "1551" and "1521". Don't know of another place in the breed where one can find three flush sisters this powerful. "1421", the dam of this heifer, produced the \$15,000 B/R Demand 628 (Lot 84) to Dikoff in 2017, a powerhouse of a bull. Then sisters are retained with more on the way allowing TD Angus to share the potential of this girl. The winning bidder on this heifer is getting in on the ground floor of these "Prides."  
**TD Angus will retain one flush.**

This heifer represents the eighth generation from the foundation "Kildonan Erica" in the program. Her dam is a maternal sister to the \$15,000 B/R Kildonan Erica 9805 that sold to Hollman and Jindra in the National Western Foundation Female Sale. A super cow prospect enhanced by Doc (3%), Milk (4%) and \$W (4%). Natural: 12/1/18- 12/28/18 to Spring Cove TL Cat D13. Safe- Due 9/30/2019.

We think this "Playbook" is an excellent cow prospect. Her dam is a favorite and her grandam was a donor. The oldest sister to this heifer already has her first daughter in E.T. and the next oldest sister weaned her first calf in 2018 (a "Cat" son) with 205-757 (118). Her only other sister sold for \$4,250 to Dubas Cattle Co. in 2018. A.I. 11/10/18 JVC Cavalry V3326. Safe- Due 8/20/19.

**SORREL**  
**GELDING**

Trey's personal horse and favorite since he was a two year old. We selected him as our pick of the two year old colts at Lazy U Quarter Horses. His mother is a out of the NCHA Hall of Famer Chula Dual and his sire is a 3/4 brother to the one and only High Brow Cat. Royally bred with all the shape and look in the world with a huge stop. Started in a good cutting program by Bill Miller. Been used outside and in the feedyard, roped lots of cattle outside and a blast to drag calves on. Never been anything but gentle his entire life. A great horse, but a lot of horse. This is horse is best when he is at work. Has performance horse written all over him.

**DUN**  
**GELDING**

This is a cool horse. Started by Tyrel Licking of Tryon, Nebraska. Beautiful dun gelding that traces back to the famous Peptoboonsmal. 15.1 hh and wears a size 1 shoe. Built the way a ranch gelding should be and gorgeous to boot. This horse has seen more Sandhill miles than a highway patrolman. This horse is as broke as they come, no bridle needed here. Westyn has rode this horse and has gotten along fine. Gentle to the core but still has enough action to cut a cow. Will be a great gelding for somebody for a long time.

**BUCKSKIN  
GELDING**

A big, strong buckskin gelding that was raised by the Lazy U program and started by Jared Cox. He is what everybody looks for when they want a ranch gelding. Out of one of the best mare lines at Lazy U Quarter Horses. We have roped lots of cattle on him outside, drug calves to the fire and logged a lot of miles in the Sandhills on him. Saddles up gentle everyday and ready for a job. Do any chore on the ranch and look good doing it.

*Kate Roberts*

Introducing new TD Angus herd sire, Musgrave 316 Exclusive. We had the opportunity to acquire a portion of the bull while Bill was visiting Musgrave Angus last summer and saw him at work on cows and he was thoroughly impressed. He is the highest \$B "316" son that offers exceptional docility, great feet and structure while still maintaining an EPD profile that ranks him as one of the top carcass sires in the breed. **Semen is available in conventional and sexed semen through ST Genetics.**
